## Description:

As Josie begins the summer before college with the dream of working at a coffee shop to save money and learn the business, she quickly realizes what she learns outside, around the dumpster, will become the foundation for her own coffee shop. Told through a journal of her lessons from a group of misfits society normally turns a blind eye to, Josie learns that common ground is not just a connection, but a philosophy of how to let your inner voice be your guide.

This is a great, easy read! Kept my attention from start to finish, as the various characters were introduced. The author displayed her creativity in writing throughout the story, and brought us an overall theme that everyone can learn and benefit from. I highly recommend it!
