Description:

They're baa-ack! Make way for the bestselling children's series of all time! With a fresh new look, GOOSEBUMPS is set to scare a whole new generation of kids. So reader beware--you're in for a scare! Camp is supposed to be fun, but Sarah hates Camp Cold Lake. The lake is gross and slimy. And she's having a little trouble with her bunkmates. They hate her. So Sarah comes up with a plan. She'll pretend to drown-- then everyone will feel sorry for her. But things don't go exactly the way Sarah planned. Because down by the cold, dark lake someone is watching her. Stalking her. Someone with pale blue eyes. And a see-through body. . . .

This is the favorite Goosebumps story of a 10-year old relative so I wanted to get her her own copy. She rates it highly. A story of a young girl's experience at summer camp. Her peer problems seemed bad enough for her to think of faking her own death, but then her plan backfires and she almost drowns. Then she starts seeing things that cause her to act strange and increases her peer problems. It is not my own interest and I feel kids today have enough strangeness in their lives without these scary things to wonder about, but perhaps they appreciate the safety of their own world after reading about a more scary one.

I don't read more by this author. This was great, but I felt that it would have made more sense to put Donny on the front cover of the next book and April on this one.
